

AGGREGATE STORAGE SILOS

- Ideal for Concrete Batch Plants •
- Store Aggregate Materials On Site •
- Load and Unload More Easily •
- Dismantle Silos and Move Them •

Tel: (509) 535-1571 • Fax: (509) 535-9130 • E-mail: mail@scafco.com • Web: www.scafco.com

Aggregate Storage Silos

Aggregate Storage Silos are a great solution to projects that require a large amount of concrete ready mix on-site. When storage space is limited, an aggregate silo is the way to go.

With openings in the walls for a tunnel, or a tunnel built into the foundation, the silos are easy to unload. The open top allows for easy top loading by belt conveyors. While this system is simple, it is also very effective.

Aggregate Storage Silos are available in many different sizes to meet the needs of your construction project.

All Aggregate Storage Silo wall sheets are high strength, 8 Ga., Corrugated, Galvanized Steel. The silos are externally stiffened for extra strength, and have a wind ring near the top to maintain stiffness around the open top.

Table of Available Sizes and Capacities

		3 Rings		4 Rings		5 Rings		6 Rings		7 Rings		8 Rings		9 Rings	
		10' 9" (3.3m)		14' 3" (4.4m)		17' 11" (5.4m)		21' 5" (6.5m)		25' 0" (7.6m)		28' 7" (8.7m)		32' 1" (9.8m)
